Benefits

Professional Development

From novice practitioners to seasoned professionals, our monthly programs, professional development workshops, communities of practice and Special Interest Groups keep members abreast of the latest trends and best practices in the training industry.

Continuing Education

Our monthly programs and workshops focus on current topics in workplace learning.

Recent Programs include:

- Emerging Technology: Wikis, e-Learning, podcasting and more
- Coaching and Leadership
- Informal Learning
- Linking learning and performance to organizational strategy
- Talent Management

Best Practices

Share and learn best practices in learning and workplace performance by accessing our online community and by participating in programs and workshops.

Networking

Networking with professionals in our community provides a rich resource for knowledge sharing and talent acquisition.

Corporate Visibility

Attendees from your organization represent your company's commitment to the Bay Area learning and performance industry. Their involvement builds awareness of your company as a workplace learning leader.

Community Outreach

Our Community Outreach Program (COP) provides training services to local non-profit agencies, while participating Chapter members build skills and training expertise. COP participation is a great way to develop skills, network, and support agencies that are dedicated to helping those in need.
